App	=	Approximate

MISPLACED VEHICLE PROCEDURE

If you have not recognised two consecutive instructions on your daily sheets PULL UP. If you are travelling on a two lane road turn around and go back to the last instruction on your sheet that you know was correct - look for tyre tracks from other vehicles. Reassess route instructions.

DO NOT turn around if you are travelling on narrow tracks as you may encounter oncoming traffic. Call, on UHF radio, the car that was traveling in front of you. If you cannot contact them, sit tight - we will find you.
